Environmental Protection Agency

Community Liaisons continue to assist in impacted counties by providing information on how to deal with environmental hazards when returning to flood damaged homes. Community Liaisons are sharing copies of EPA information at county EOCs and FEMA DRCs. Informational fact sheets for governmental entities and citizens have been posted on www.epa.gov/hurricane-harvey. EPA mobile air monitoring TAGA bus is scheduled to finish monitoring neighborhoods surrounding four industrial sources in Galina Park on today. All three Branches of Unified Command (EPA, TCEQ, TxGLO and USCG) are recovering and staging orphan containers. The Corpus Christi Branch expects to complete recovery/staging activities within the next week, Port Arthur/Beaumont within 20 days, and Houston within 30 days. EPA will complete sampling of the 34 Superfund sites in Texas potentially impacted by the storm this week and preliminary analytical results should be provided soon and will be released to the public. EPA is also the 9 Superfund sites in Louisiana potentially impacted by the storm and will complete sampling this week.
